

## Press release

Guntramsdorf, February 2015

### **KAHLES Helia 5 1.6-8x42i steel edition**

Steel has tradition – steel has strength – steel has class

Due to its compact dimensions and universality, the Helia 5 1.6-8x42i is perfect for beautiful hunting guns and is very popular with hunting trip enthusiasts. Hunters who use beautiful, fine guns need rifle scopes designed to suit their rifles perfectly, for aesthetic reasons among others, and which remain steadfast even when used in the harshest hunting conditions, far from civilisation.

The new Helia 5 1.6-8x42i steel edition offers exactly these characteristics, making it the first choice for all hunters who want to be ideally equipped for as many hunting situations as possible and who require the best optical performance and maximum universality. The classic surface finish of the polished and completely scratch-proof tempered steel is also a feast for the eyes when fitted on very fine or historical hunting guns, and makes it an almost indestructible and completely robust companion for safaris and the like.

The optical strengths of the Helia 5 1.6-8x42i are primarily close- and medium-range shooting. A wide, high-contrast field of view of 25.5-4.9 m/100 m, a true 5x zoom and an objective lens diameter of 42 mm, combined with high twilight performance and the tried-and-tested 4-Dot/G4B reticule with the KAHLES automaticlight system, make for ideal all-round features.

**If top optical performance, robustness and reliability are required alongside beauty and aesthetics, the Helia 5 1.6-8x42i Steel Edition is the first and best choice!**

### Technical data:

The technical data are except the weight (~ 900g) identical with the normal [Helia 5 1,6-8x42i](#).

**KAHLES. Never miss THE MOMENT!**

### KAHLES – the rifle scope pioneer since 1898

As the world's oldest rifle scope manufacturer, KAHLES has set many milestones in the course of its company history. However, its strong market position is based not only on pioneering past work, but also on lasting and innovative development and production in Austria. Every KAHLES product is developed, manufactured and checked exclusively in the production plant in Guntramsdorf based on the highest quality standards before beginning its journey to customers around the globe. More than 50 employees – including designers, opticians, toolmakers, watchmakers and precision engineers, to name just a few – work at the plant near Vienna, creating cutting-edge precision optical products with extremely tight tolerances.
